

Your latest decision to allow the Bells to monopolize DSL service is incompetent, irresponsible and irrational. Thanks to you, I now have 2 choices for broadband instead of 6. I used to vote republican, but there are just too many corporate lap dogs in the administration. Next election, for the first time in my life...I will vote for a democrat. I would like to thank the two democrats for trying to protect my freedom of choice. As for you Mr. Powell, go back to school and take business 101.
